

UPDATE 1.2 FOR CONFIGURATOR

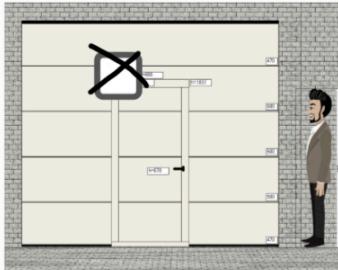

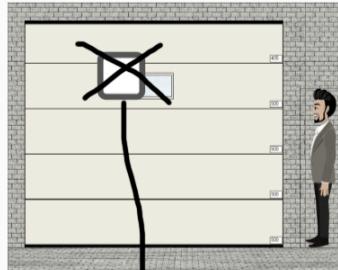

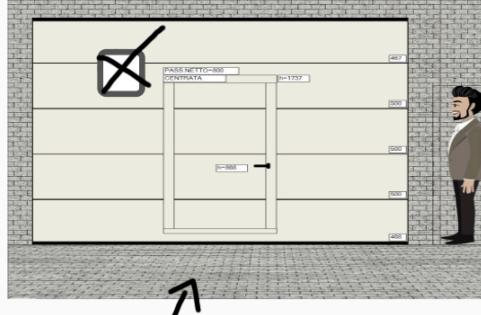

- In upper left, change Sirio Model with MODEL S and align it with Image
- Image section is not adapting automatically with width and height of the picture. As you can see, the pic i've added is cutted in the top.
Please make it responsive and automatically adapting, so pic will be 100% shown.
- Add after text "...del portone in 10 anni." this text "Prezzi IVA escl."
- Change Total price with PREZZO TOTALE
- In the right: Change DETAILS with CONFIGURATORE and FORM with PREVENTIVO (and follow instructions on screenshot)
- Change Sirio Model with MODEL S
- Fix estimated consign date following instructions on screenshot
- Just before dimension section, add a title writing "INSERISCI LE DIMENSIONI" and then you can show all available colors
- Change Meter with Metri
- Change Square meters with Metri quadri
- Just before color section, add a title writing "SCEGLI LA COLORAZIONE" and then you can show all available colors
- Fix colors issues following instructions on screenshot
- Change Accessories with ACCESSORI

After the title ACCESSORI:

- The check box is very little, please make it bigger and show it below each picture, not on the picture, instead it will not be visible. The checkbox must be selected as soon as the client click on the upper picture or if he select the checkbox. The picture in left must update as soon as he select an ACCESSORI picture or when he select one checkbox.
- If you select PORTA PEDONALE, we can see 2 options, Soglia ribassata and Soglia rinforzata. Pictures of these 2 features are not good to be seen because they're not adapting automatically. Please fix that.
- Fix titles as shown in screenshot
- Remove all checkboxes in ACCESSORI section
- Follow other instructions on screenshot

Add titles before each feature, like:

KIT SPALLETTA E VELETTA <small>IN CASO DI MANCANZA DI SPAZI LATERALI PER L'ANCORAGGIO</small>  <small>ACQUISTARE IL KIT SPALLETTA E VELETTA PER PORTONI DA GARAGE</small>	PORTA PEDONALE 	LUCERNARI  SI NO <p style="text-align: right;">Remove all checkboxes and use 2 buttons with SI (yes) and NO (no) as options. If client select YES, it means he wants to buy this accessory.</p>
SOGLIA RIBASSATA Soglia ribassata 	SOGLIA RINFORZATA Soglia rinforzata 	
PICS SEEMS TO BE STRETCHED, BECAUSE THEY ARE NOT ADAPTING AUTOMATICALLY. PLEASE MAKE THEM RESPONSIVE		

After, there is the remote controllers section. Follow screenshot instructions.

Also, when you apply VAT (4, 10, or 22%) the total cost has 3 decimals after the ":"

Example: € 1204.500

Please remove the last decimal, it must be € 1204.50

~~Remote Controllers~~ → QUANTI TELECOMANDI?

Remote controller is just one. Remove checkbox and show a dropdown menu where client can choose how many remote controller he wants to buy. Each one has a cost of 38€. Dropdown must go from 1 to 20 quantity. Since you will remove checkbox, when client will click on remote controller image, the image must be highlighted and then the dropdown menu will appear.

~~Excluded VAT~~ → ALIQUOTA IVA

4% per legge 104 e concessione edilizia prima casa in corso di validità

10% per ristrutturazione edilizia con titolo in corso di validità

22% regime ordinario

~~Next~~ RICHIEDI PREVENTIVO

After clicking on RICHIEDI PREVENTIVO, we can see the form. Apply changes written in screenshot.

Nome e Cognome / Ragione Sociale

Name and surname / Company name

RICEVI PREVENTIVO VIA MAIL

Add here a button to go back to step 1, named “TORNA INDIETRO”

Also, after this section you must show the total of the cart, as shown on tesla configurator, check here:

It must be a summary of what client have chosen in the configurator.
